

LEADERSHIP LEARNING

Transforming Leaders to Empower Teams

About Your First Consultation

Over the years, I realized that people, who worked on their well-being only one hour per week, experienced struggle and increased distress, as well as a lengthy, drawn-out path to relief and happiness. Therefore, I developed signature programs for business leaders that allow natural breakthrough sessions, which effectively diffuse the past and create dynamic pathways to the future.

My approach to leadership transformation is unique. Other than coaching on issues, you and I will uncover and eliminate the causes of limiting beliefs that keep you from getting to the next level.

Please allow 2 to 2 ½ hours for our first session. During this “get acquainted” visit, we will decide if we are the team to accomplish your desires and goals and you will select your InnrSight BreakThrough™ program. Programs range from one to six months. Your goals, the outcome you desire, as well as the number of months we work together, will determine which program will best suit your unique situation.

Email me to schedule a brief telephone call to reserve your first visit,
